6008 Fair Oaks Drive – Zoning ORI

The Office/Research Industrial District (ORI) is intended to provide for the development of office, research and limited manufacturing uses in high visibility locations along major highways. Development in this district shall be characterized by an absence of nuisances in a clean and aesthetically attractive setting. This district shall permit limited manufacturing, fabrication or assembly operations which would, by nature of the product, or magnitude of production, be compatible with research, professional or business offices. Commercial uses shall be limited to those which are primarily oriented towards servicing those businesses located within the Office/Research Industrial District.

PS = Principal permitted use subject to site development plan approval:

- **Office Business**
- **Office Professional**
- **Broadcasting Studio**
- **Communication Towers**
- **Medical Clinic**
- **Limited Manufacturing and assembly use**
- **Laboratory Research, experimental or testing**
- **Comprehensive Physical Rehabilitation Facility**
- **Commercial School or Education Program**

Zoning & Development Notes from Frederick County Zoning Department:

- ORI is a dated and antiquated zoning designation created in the 70's when Rt 270 was being built.
 - Meant to limit growth in this corridor.
- Denis S. is the Manager at Frederick Livable Planning, and he is working on getting rid of this designation.
 - This will take a year to make the recommendations to the council, so no quick fix here.
- Tolson, with the Zoning Department was my next call.
 - He did say Childcare was approved in the ORI category but limited to only 10% of the building.
 - Again, a code adjustment to allow offices to have daycare but not much thought went into this.
 - He said my building would be a perfect example of why a childcare should be allowed.
 - Best bet he said was offices (Professional Office or Business Office)
 - He said a contractor would work if they applied as a **business office**.
 - **Vehicles may be parked outside.**
 - Any materials would need to be stored inside.
 - Zoning is in the process of changing so it is possible that within a year, outside storage would be allowed.
 - Obviously, no enforcement was ever made for the previous tenant.
- We are allowed to expand the building by 25 ft forward from the front. So, it is possible that someone could make a space for inside storage if they wanted to.
- Water and Sewer are expected to be coming down this road eventually, as they are putting in the fire station across the street.
 - It would be possible to connect to the sewer and then have 10,000 sf in the back to expand upon.
